

## Patient and Family Notice – Coronavirus

Protecting our patients, visitors and employees is our responsibility and highest priority.

Given concerns around the spread of the Coronavirus, also known as COVID-19, we are changing our hospital visitor policy, effective March 11, 2020.

### Hospital Visitor Policy

- All visitors must check in at a Visitor Information Desk
- No visitors under age 18, unless they are the parent of a child in the hospital
- Only one adult visitor allowed per patient in all areas of the hospital
- Visitors may be screened for flu-like symptoms (runny nose, fever and cough) and will not be allowed to visit if symptoms persist
- Visitors with international travel may not visit for 14 days after arrival in the United States

We are letting you know so that you may share this information with your family members before they try to come to the hospital.

We appreciate that this may be an inconvenience for patients and families. Please know that we made this decision in the best interest of our patients. Exceptions may be made, as necessary.

Our COVID-19 Command Center is working in close coordination with state and local health officials and will continue to reassess this policy, as appropriate.

You can learn more about our COVID-19 response plans and other updates on our website: **[lifebridgehealth.org/COVID19](https://lifebridgehealth.org/COVID19)**

We appreciate your understanding and support.
